

# Defined Aptitude

## Empower Students to Discover Their Strengths and Unlock Their Potential

### About Defined Aptitude

The Defined Aptitude test helps 8th and 9th-grade students understand their unique talents and make more informed decisions about their academic and future career paths. This awareness leads to higher engagement and better post-graduation outcomes.

This online test is administered by the student's school or district and takes two hours to complete. Upon completion, students are provided access to [Defined Careers](#) where they have the opportunity to further explore and experience the careers that match their strengths.

### Features

- **Age-Specific Content:** Designed keeping in mind the cognitive level of 8th and 9th graders, ensuring a balanced mix of challenge and engagement.
- **Comprehensive Assessment:** 16 aptitudes analyzed including: Mathematical, Verbal, Spatial, Abstract, and Mechanical reasoning.
- **Personalized Reports:** Each student receives a detailed analysis highlighting strengths, areas for improvement, and potential future directions.
- **Continuous Learning:** Seamlessly move from aptitude results to experiencing recommended careers within Defined Careers.
- **Advanced Reporting:** Easily understand the strengths of your students to help them unlock their potential.

### Benefits

- **For Educators:** Get a clearer picture of where each student stands, allowing for more targeted teaching strategies and curriculum planning.
- **For Parents:** Understand your child's strengths and potential areas of growth to guide them better in their academic and extra-curricular choices.
- **For Students:** Gain insights into where your natural talents lie, helping in making informed decisions about future studies and potential careers.

#### Assessment Results

You did it! Now that you have completed the Aptitude Assessment, explore careers based on your results:

1. **Top 5 Aptitudes**  
These 5 aptitudes are indicative of your strengths based on your answers.
